Terrible Affair.

Two women, living in the neighborhood of the gas works, losing their equanimity over that ever fruitful source of female discord, the hydrant, had a desperate encounter on Wednesday, in which caps and curle, ribbons and ruffles were torn from and scattered about the persons of these Amazons, with an utter disregard of all consequences. At length the prostrate figure of one lady under the pump proclaimed the triumph of her antagonist, who by threatening to shoot, and the actual production of a weapon, succeeded in bringing her fair rival down in a swoon. This under means, however, of carrying the day, suggested the propriety of a prosecution for threatening to shoot, and the matter was brought before, Squire Snel baker, yesterday. During the progress of the testimony for the State, an extraordinary sensation was produced in the office, by the defendant springing upon her feet, and taking from beneath her shawl a large syringe, about eighteen inches long. "There," said she, "that's my weapon that's the pistoi I had"-at the same time, amidst the convulsive laughter of the bystanders, attempting to illustrate its by draulic properties by taking a squirt at the magistrate. The evidence was deemed sufficient to require her to give security in \$150 to kem the peace.-[Cincinnatti Commercial.

A SAGACIOUS Ass .- At the Sligo assizes, Owen Gethin was arraigned for having stolen an ass, the property of l'atrick Feeney. He had lumps on his knees and on his back, and on his nose. (Loud laughter.) Clerk of the Crown: Had you any other reason for knowing the animal was yours? Witness: Yes, I knew his woice. (Loud laughter.) Chief Baron: Whose woile? Witness: the woice of my ass, my lord-(laughter) -the minute he saw me he threw up his tail and roared. (Loud laughter.) Chief Baron : Roared! who regred ! Witness: My ass, my lord; he roared with joy; we were together for the last five years, he knew me well, and I would know his woice twenty miles off. The prisoner was convicted.

The Day Book thinks that the great commotion excited by Jenny Lind's arrival is a trick of Barnum to subvert the Constitution of the United States, elect her President, and place the whole country under petticoat government! The best govern-

ment in the world. The Providence Transcript says there is a lady in that city so aristocra i that she refuses to take a newspaper, because the pa-

of a "Jenny Lind Tea Kettle," which, being filled with water and placed on the fire, commences to sing in a few minutes. A great many people like an independ-

The communication of knowledge simply, is not the sole design of Education and should no be made so ; its highest aim is to strengthen and bring out into action, the intellectual and moral powers of the student. Throw around him all the facilities necessary to his progress, and af-ford him all proper aid, but do not flatter him with the thought that he must rely upon another and not upon his own efforts for success. Independent self-reliance is one of the first lessons hat should be learned in a school room. This kind of early mental training prepares one for vigorous and manly exertion in latter life, and thus gives him a marked advantage over the ignorant and uneducated. The main efforts of a Teacher should, therefore, be directed to the formation of sound habits of study, for when! this

## PURE FRESH COD Liver Oil.

INHIS new and valuable Medicine, now used by the medical profession with such astonishing efficacy in the cure of Pulmonary Consumption. Scrofula, Chronic Rheumatism, Gout, general Debility,

Complaints of the Kidneys, &c. &c., is prepared from the liver of the (OD-FISH for medicinal use, expressly

or our sales. [Extract from the London Medical Journal.] C. J. B. WILLIAMS, M. D., F.R.S., Professor of Medicine in University College, London, consul-ting physician to the Hospital for Cousumption &c., says; "I have prescribed the Oil in above four hundred cases of tuberculous disease of the Lungs, in different stages, which have been under my care the last two years and a half. In the large number of cases, 206 out of 234, its use was followed by marked, unequivocal improvement, varying in degree in different cases, from a temporary retardation of the progress of the disease and a mitigation of distressing symptoms, up to more or less complete restoration to apparent

health "The effect of the Cod Liver Oil in most of these cases was very remarkable. Even in a few days the cough was mitigated, the expectoration diminished in quantity and opacity, the night sweats ceased, the pulse became slower, and of better volume, and the appetite, flesh and strength

were gradually improved. "In conclusion I repeat that the pure fresh Oil from the Liver of the Cod is more beneficial in the treatment of Pulmonary Consumption than any agent, medicinel, dietetic or regimenal, that has yet been employed."

As we have made arrangements to procure the Cod Liver Oil fresh from head quarers, it can now be had chemically pure by the single bottle or in boxes of m. 1.z n each. Its w prierful efficacy has induced num-

turs precious imitations. As its success inpr. ds entirely on its purity, too much are can not be used in procuring it orat-INP.
